To the Warden and Members of the County Council of the County of Norfolk.

Gentlemen :—

Your Committee on County Roads beg leave to report as follows :

Since your last meeting we have visited the entire Road System, and while they gave out in certain places, it was in most cases due to impossible proper drainage, which in our opinion, is the most important part of Road Construction.

The Tar Mulch which was used last year gave almost entire satisfaction, only one piece giving trouble which was north of Boston.

Following your instructions of last meeting, we purchased one Leaning Wheel Grader and Tractor, same will be on the job in a few days.

We also visited the Bridges, this being an entirely new job for the Road Committee. We find them in most cases in good condition, and in the general expenditure will be for painting.

Report of the Agricultural and Industrial Committee.

Your Agricultural and Industrial Committee begs leave to report as follows :

The members of the Committee met in the office of the Department of Agricultural on Saturday morning, June 15th, and were in session during the greater part of the day.

The first matter discussed was that of the County exhibit at Toronto Exhibition. F. C. Patterson, Agricultural Representative acquainted the Committee with his plans for the exhibit, and he was given authority to go ahead and work out his plans.

The County Agricultural Development programme worked out by Mr. Patterson and which is part of an Ontario development scheme was gone over in detail. The programme is based on an analysis of the Agricultural conditions of the County and is intended to work along the lines of solving the immediate needs of the County, and build for the future more staple Agricultural conditions.

It is impossible in this report to go into details of the programme. It covers the field of soil improvement, field crops, apples, vegetables and canning crops, small fruits, tobacco, reforestation, dairying, poultry, live stock, junior work and publicity.

Your Agricultural Committee very heartily endorse the programme as outlined by the Agricultural Representative and believe he should have the support of every member of the County Council. We would suggest that if possible, Mr. Patterson supply each member of the County Council with a synopsis of the County programme. In fact it might be good business to have it printed in circular form and supplied to all the farmers of the County.

A Committee of the Norfolk Agricultural Society met your Committee in joint session with the members of the Finance Committee. It was pointed out that the Norfolk Agricultural Society was one of the oldest Agricultural Organizations in the County, and that in the past it has performed good service along educational and publicity lines. If it is to continue as a model County and maintain it's educational feature, it must have some financial assistance. Your Committee feel that some form of assistance should be rendered the Norfolk Agricultural Society.

All of which is respectfully submitted.
